

SPECIAL SERVICES

Welcome!

At Yellowstone College Preparatory, we believe all students can learn. We provide a comprehensive, student-centered, problem-solving approach that integrates high-quality instruction, assessment, and intervention within a multi-tier prevention system for early identification of students who are at risk academically or behaviorally. Our collaborative efforts with other departments, campuses, parents, students, and community organizations meet the needs of all students.

Yellowstone College Preparatory promotes effective teaching approaches and intervention strategies that address dyslexia and related difficulties in learning to read and write. We believe that all students have a right to achieve their full potential and that individual learning abilities can be strengthened through explicit, systematic, multisensory instruction.

DYSLEXIA

Dyslexia is defined as a general term for disorders that involve difficulty in learning to read or interpret words, letters, and other symbols but that do not affect general intelligence.
